Betreff:

Call for Papers for the 14th Lysimeter Conference at Gumpenstein, on Tuesday, the 3rd and Wednesday, the 4th of May 2011

The general topic is „Lysimeters in Climate Change Research and Water Resources Management“, with the following sub-topics:

- Recent developments in lysimeter technology and modelling
- Quality control in lysimeter operation – requirements and practice
- Water, heat and solute transport process studies at different scales
- Investigations of soil – plant – atmosphere interactions using lysimeters
- Agriculture, climate change and environmental protection.

If you want to deliver an oral presentation or to present a poster, please send your application by email to Mrs. Brigitte Marold (brigitte.marold@raumberg-gumpenstein.at) until Friday, the 30th of July 2010. The application should include the following details:

- name and address of the authors
- title (short and concise)
- abstract (maximum length 300 words)
- keywords (3-5)
- specification of the sub-topic
- type of presentation (oral presentation or poster).

The scientific advisory council of the Lysimeter Research Group will decide by the end of September 2010 whether your paper or poster is accepted. If your paper or poster is accepted, your full-length manuscript has to be submitted to Brigitte.marold@raumberg-gumpenstein.at no later than Friday, the 14th of January 2011. Further information and the instructions for the full-length paper will follow.

Best regards from Gumpenstein,

HR Prof. Mag. Dr. Albert Sonnleitner, Director
